

# Harm reduction worker safety during the COVID-19 global pandemic

## NATIONAL RAPID GUIDANCE RECOMMENDATIONS - RESPONDING TO AN OVERDOSE

THIS DOCUMENT DOES NOT SUPERSEDE A PROVIDER'S CLINICAL EXPERIENCE AND DECISION-MAKING SKILLS.

VERSION 2 GUIDANCE DOCUMENT

Always take COVID-19 precautions when responding to an overdose.

### AGMP

Identify and train staff responsible for performing AGMP. They should be mask fitted for N-95 masks.

Staff providing care to clients should wear an N-95 mask, a gown, eye protection (goggles/face shield) and gloves.

All non-essential personnel should evacuate the room.

### Non-AGMP

Staff should wear a medical mask, eye protection, gown and gloves.

\*AGMP: Aerosol Generating Medical Procedures.

Note: Nasal naloxone is not an AGMP procedure and evidence suggests that CPR face shields do not provide sufficient protection.
